

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

CERTIFICATE OF SECRETARY OF STATE

STATE OF OREGON,  
Office of the Secretary of State,  
Salem, October 1, 1914.

*Hon. Thos. B. Kay, State Treasurer,  
Salem, Oregon.*

Sir: I hereby certify that the cash balance charged the State Treasurer as being in his hands at the close of business, September 30, 1914, was five hundred sixty-seven thousand, nine hundred seventeen and 67-100 dollars (\$567,917.67), as appears by the books of this department.

Very respectfully,

BEN W. OLCOTT,  
Secretary of State.

# State Treasurer's Report

STATE OF OREGON, TREASURY DEPARTMENT,  
Salem, October 1, 1914.

*To the Legislative Assembly of the State of Oregon:*

In accordance with the provisions of the law, I respectfully present the following report of the transactions of the Treasury Department of the State of Oregon for the biennial period commencing October 1, 1912, and ending September 30, 1914.

The exhibits, tables and statements fully present and explain the condition of all funds and the operations of this department during the period named.

I have also submitted for your consideration a few amendments to existing laws, the enactment of which we believe would redound to the advantage of the State and materially assist this department in the economical administration of the subject matters embraced in said laws.

The receipts and disbursements of this office during the last two years have been greater by a large per cent than any like period in the existence of the State, being briefly summarized as follows:

Cash on hand October 1, 1912.....	\$ 993,736.47
Receipts for the two years ending September 30, 1914..	10,226,773.82
Total.....	<hr/> \$11,220,510.29
Disbursements for the two years ending September 30, 1914 .....	10,652,592.62
Cash on hand October 1, 1914.....	<hr/> \$ 567,917.67

The financial affairs of the State continue in the same splendid condition that has been maintained for many years; the State owes no debt, bonded or otherwise, and there are ample funds on hand and provided for to pay all obligations authorized by law for the fiscal year ending December 31, 1914.

## WARRANT ENDORSEMENTS AND RECOMMENDATIONS REGARDING SAME

Warrants on all funds have been paid as presented, with the exception of the months of October, November and December of 1913, and January, February and March, 1914, when warrants on the General Fund had to be endorsed, "Not paid for want of funds," and upon which interest was paid in the

sum of \$24,233.00. This is one matter which, in the interest of economy and business, is worthy of your consideration, as you will notice from our report that much of this interest could have been saved the State if moneys in the treasury to the credit of the many special funds that are carried could have been used in payment of these general fund warrants, and we would recommend the enactment of legislation that would allow these special funds to be merged into the general fund.

#### STATE TAXES AND RECOMMENDATIONS REGARDING TIME OF PAYMENT

All counties have paid the first half of this year's State tax, and upon request of this office many county treasurers have made substantial payments upon the second half, thereby allowing us to continue to honor and pay in cash warrants drawn upon the general fund which otherwise would have been endorsed, "Not paid for want of funds," and upon which interest would have accrued.

We would, therefore, earnestly recommend to your consideration the amendment of the existing law so as to make sixty per cent of the State tax due and payable on or before April 1, and the balance due and payable on or before October 15 in each year.

Under the present system that makes the first half of the State tax due on April 1 and payable without penalty May 1, and the second half on November 1 and payable without penalty December 1, it frequently happens that there are no moneys in the State treasury with which to pay warrants drawn upon the general fund, and the same are endorsed and the State required to pay six per cent interest, when there are moneys belonging to the State in county treasuries or county depositories.

#### EDUCATIONAL FUNDS

Practically the entire principal of the Common School, Agricultural College and University funds are kept invested in first mortgages on real property and bonds of school districts, and the interest on these loans are well paid up, there being but few on which interest is overdue.

During the last two years fourteen notes and mortgages, aggregating the sum of \$20,800.00, have been turned over to the attorneys of the State Land Board for foreclosure proceedings.

There has been an increase of \$151,291.24 in the principal of the common school fund during the past two years.

The income from the investments of the common school fund, apportioned to the counties during the years 1913 and 1914, was \$734,202.25, against \$699,605.64 apportioned during the previous two years.

For the two years ending September 30, 1914, the net income from the investments of the Agricultural College fund was \$26,324.26, and of the University fund, \$12,376.63.

The following is a comparative statement of the condition of the educational funds, an itemized list of present loans being set out under statement of each fund account:

## COMMON SCHOOL FUND

Nature of Securities	Amount Sept. 30, 1912	Amount Sept. 30, 1914
First mortgage loans, 6 per cent.....	\$5,550,764.03	\$5,885,054.00
School district bonds, 6 per cent.....	233,425.00	206,750.00
Certificate of sale of State land.....	384,205.13	285,388.09
Cash on hand .....	84,155.06	26,648.37
Totals.....	\$6,252,549.22	\$6,403,840.46

## AGRICULTURAL COLLEGE FUND

Nature of Securities	Amount Sept. 30, 1912	Amount Sept. 30, 1914
First mortgage loans, 6 per cent.....	\$ 193,691.38	\$ 189,176.47
Certificate of sale of State land.....	2,360.00	1,960.00
Cash on hand .....	5,332.61	10,977.52
Totals.....	\$ 201,383.99	\$ 202,113.99

## UNIVERSITY FUND

Nature of Securities	Amount Sept. 30, 1912	Amount Sept. 30, 1914
First mortgage loans, 6 per cent.....	\$ 102,415.89	\$ 103,141.52
Cash on hand .....	1,219.47	493.84
Totals.....	\$ 103,635.36	\$ 103,635.36

## SEGREGATED ACCIDENT FUND

Under the provisions of the Compensation Act it becomes the duty of the State Treasurer to invest the moneys in the Segregated Accident Fund. At the present time there is in said fund the sum of \$45,748.78, arrangements for the investment of which in six per cent bonds of school districts have been completed and delivery of same will be made within a short time.

### DEPOSITS OF STATE FUNDS AND INCOME FROM SAME

In making deposits of State funds we have strictly followed the requirements of the State Depository Act of 1907, requiring all banks in which deposits are made to furnish collateral securities sufficient to guarantee the repayment of the amount of all such deposits.

It has been the policy of this department to secure for the State all possible revenue from this source and also to extend these deposits to a larger number of banks, thus placing the money not in immediate demand back into circulation in all parts of the State, from whence it was received.

The banks receiving deposits pay two per cent interest on daily balances, and from this source the State received during the two years from October 1, 1912, to September 30, 1914, the sum of \$34,824.35, against \$24,463.50 for the previous two years, showing that the State now receives from this source sufficient revenue (that formerly was regarded as a perquisite of the State Treasurer) to not only pay the entire expenses of this department, including the salary of the State Treasurer, but also furnishes a substantial surplus for the benefit of the general fund of the State.

It has been impossible to appoint all the banks that have made application to become State Depositories, but we have endeavored, as far as it was practicable, to have a representative in two or more places in each county, having at the present time 76 banks acting as State Depositories, with deposits of \$471,430.48, for which we hold collateral securities in the sum of \$1,300,000.00.

### INHERITANCE TAX

The receipts from taxes on inheritances for the two years ending September 30, 1914, were \$163,496.66, an increase of \$28,480.21 over receipts of the previous two years.

We have made special effort to secure for the State all taxes justly due under the provisions of the Inheritance Tax Law, demanding that the true value be placed upon all property coming within the jurisdiction of this law, and that taxes be paid upon all transfers of property made in contemplation of death, and by these methods have secured the large increase noted in receipts; a large part of these additional taxes have been collected upon hearings held in court, upon our request, where our contention has been upheld in every instance, thereby adding something over \$20,000.00 to the State's revenue from this source without any additional expense excepting the fees required in having re-appraisals of estates.

We believe that the policy of this department in the administration of this law has been eminently satisfactory to the several County Courts and the attorneys of the State, and has brought about a better understanding of the provisions and requirements of this Inheritance Tax Law and assisted in having it universally recognized and accepted as equitable and just and a proper source from which the State should collect revenue.

### RECOMMENDATIONS

Following the suggestions and advice of several of the County Courts, we present for your consideration some amendments to the present law, which we believe would make more clear and satisfactory the intent of the law in several matters, and others that would enable the State to protect itself from loss by reason of nonfeasance on the part of representatives of estates of non-resident deceased.

We would recommend that Sections 1191 and 1192, L. O. L., be amended by including in the list of beneficiaries "associations," as it has been alleged in Court that the present statute is not broad enough to require the payment of an inheritance tax upon any gift, devise or bequest willed to an association not incorporated under our law.

We would recommend that Section 1196, L. O. L., be amended to read as follows:

Sec. 1196. Every tax imposed by this Act shall be a lien upon the property embraced in any inheritance, devise, bequest, legacy or gift until paid, and the person to whom such property is transferred, and the administrators, executors and trustees of every estate embracing such property shall be personally liable for such tax until its payment, to the extent of the value of such property; provided, however, that in all estates excepting those of non-resident deceased, all inheritance taxes shall be sued for within five years after they have become due and legally demandable, otherwise they shall be conclusively presumed to be paid and cease to be a lien as against the estate or any part thereof, of the decedent; provided, further, that in estates of non-resident deceased, such limitation period shall not apply until one year shall have elapsed from the date of filing with the State Treasurer official notice of the death of said non-resident deceased, with description and probable value of the estate and names of heirs or beneficiaries.

Under the statute as it now stands, we find that many representatives of estates of non-resident deceased, seek to avoid the payment of inheritance taxes upon large and valuable estates by not administering upon said estate until five years and eight months after the death of the non-resident, and then claim exemption from the payment of any inheritance tax under the statutory provision of this Section 1196. We have at this time pending in Court three such estates.

We would also recommend the passage of an amendment

requiring representatives of foreign estates to pay any inheritance tax that may be due from such estate on account of any mortgage upon property in this State, before the said mortgage could be satisfied on county records.

We would further recommend the amendment of that provision of our present law whereby no estate is taxable unless, when going to direct heirs, it is of the value of \$10,000.00, or to collateral heirs, of the value of \$5,000.00, by providing for the payment of a tax upon value of the inheritance received irrespective of the value of the estate from which it is derived.

#### COLLECTIONS ON ACCOUNT OF MAINTENANCE OF INMATES OF OREGON STATE HOSPITAL AND STATE INSTITUTION FOR FEEBLE-MINDED

There is still owing from the County of Multnomah, for maintenance of inmates at the Institution for Feeble-Minded to June 3, 1913, the sum of \$9,533.88, which said county refuses to pay until the State shall appropriate for and pay a claim of said county for expenditures by it on account of non-resident paupers.

There is still owing from the County of Clatsop for maintenance of insane to June 3, 1913, the sum of \$763.35, which it refuses to pay, stating that it was unable to collect this sum from those whom the committing Court ordered to pay same.

#### WEIGHTS AND MEASURES

As State Sealer of Weights and Measures, acting under the provisions of the Act passed by the Legislature in 1913, I procured all the standards that could be purchased from the appropriation made for that purpose, had the same tested and sealed by the Bureau of Standards, took up with the several County Courts the appointment of men qualified to act as Deputy County Sealers, and actively entered upon the correction of abuses of long standing, and trust that you will find from the detailed statement set out in this report, that this feature of our work has resulted in much good, and that, with the changes recommended, we shall obtain that protection from fraud upon the general public that will bring protection to all, buyer and seller. Your special attention is directed to the recommendations submitted by the Deputy State Sealer of Weights and Measures.

---

CONCLUSION

In the month of August, 1914, the representatives of the bonding companies made an exhaustive examination of this department, auditing all funds, accounts, receipts, disbursements, bank balance, securities, etc., reporting upon same as follows:

"We found Mr. Kay's office in excellent shape and exceptionally conducted by very efficient help. The books are kept in a neat and orderly manner, and accounts balanced to a cent."

Your attention is respectfully directed to statements and tables in this report, setting forth in detail matters relating to revenue and disbursements, the transactions and balances in connection with the several funds, the loans and securities held on account of the educational and trust funds, collections on account of the inheritance tax fund, and other matters of interest to the State and its legislators.

Respectfully submitted,

THOS. B. KAY,  
State Treasurer.

## STATEMENT

## Of the Apportionment of the State Taxes Among the Several Counties of the State for the Year 1913

The following table shows:

*First Column*—Names of counties.

*Second Column*—Proportion, in percentage, which the equalized value of taxable property within each county bears to the total amount of taxable property in all the counties of the State, as so determined and equalized, which proportion is also the proportion of the State taxes to be paid by the several counties of the State, as provided in Section 3641, Lord's Oregon Laws.

*Third Column*—The total amount of revenue to be raised for the fiscal year ending December 31, 1913, for State purposes, not provided for by a special tax, fully authorized by law, and apportioned to each county of the State of Oregon, to be levied and collected and paid into the State Treasury by each of the said counties in the manner provided by law, being the resulting per cent apportioned to each of said counties of the sum of one million eighty-six thousand fourteen dollars and one cent (\$1,086,014.01) being the total revenue to be raised by taxation for State purposes for the fiscal year ending December 31, 1913, being at the rate of 1.2 mills on each dollar of the assessed value of the total taxable property in the several counties, as equalized by the Board of State Tax Commissioners.

*Fourth Column*—Amount to be raised for the annual support and maintenance of the Oregon Normal School, which shall be levied and collected in the same manner as other taxes are levied and collected, provided by law to provide for the permanent support and maintenance of "The Oregon Normal School at Monmouth, Polk County, Oregon," proclaimed in force by proclamation of the Governor of December 3, 1910, being thirty-six thousand two hundred dollars and forty-seven cents (\$36,200.47) as set out in the following table, being at the rate of one-twenty-fifth of a mill on the dollar upon all the taxable property in the State.

*Fifth Column*—The total amount of revenue to be raised for the fiscal year ending December 31, 1913, for State purposes and for the support and maintenance of "The Oregon Normal School at Monmouth, Polk County, Oregon."

## STATEMENT

## Of the Apportionment of the State Taxes Among the Several Counties of the State for the Year 1914

The following table shows:

*First Column*—Names of counties.

*Second Column*—Percentage that the equalized value of the taxable property in each county is of the total value of the taxable property in the State as so equalized, which percentage is also the proportion of the State taxes to be paid by the several counties, as provided in Sections 3641 and 3644 of Lord's Oregon Laws, amended by Sections 28 and 31 of Chapter 193, Laws of 1913.

*Third Column*—The total amount of revenue to be raised for the fiscal year ending December 31, 1914, for general State purposes, not provided for by a special tax, fully authorized by law, and apportioned to each county of the State of Oregon, to be levied and collected and paid into the State Treasury by each of said counties in the manner provided by law, being the resulting amount apportioned to each of said counties by application of the respective percentage or proportion shown in the second column hereof to the total amount of \$3,888,258.10.

*Fourth Column*—Amount to be raised for the "Monmouth Normal School Fund," to be levied and collected as other State taxes are levied and collected, as provided by Chapter 2, General Laws of Oregon of 1911, being at the rate of one-twenty-fifth of a mill on the dollar upon all the taxable property of the State, and amounting to \$38,171.30.

*Fifth Column*—Amount to be raised for the "State Road Fund," to be levied and collected as other State taxes are levied and collected, as provided by Section 13 of Chapter 339, General Laws of Oregon of 1913, being at the rate of one-fourth of a mill on the dollar on all the taxable property of the State, and amounting to \$238,570.60.

*Sixth Column*—The total amount of revenue to be raised for the fiscal year ending December 31, 1914, including the amount for general State purposes, the amount for the "Monmouth Normal School Fund," and the amount for the "State Road Fund"; said total amount being \$4,165,000.00, apportioned among the several counties, to be paid to the State Treasurer in the respective amounts specified.

## COMMON SCHOOL FUND, PRINCIPAL

This fund is derived from the following sources:

The proceeds of the sale of the sixteenth and the thirty-sixth sections of every township in the State, or of any land selected in lieu thereof.

The proceeds of the sale of the five hundred thousand acres of land to which the State is entitled by the provisions of an Act of Congress, approved September 4, 1841.

All lands selected for Capitol building purposes, under an Act of Congress, approved February 14, 1859.

The proceeds of the sale of tide and overflow land within the State.

All the moneys and clear proceeds of all property which may accrue to the State by escheat or forfeiture.

The proceeds of all gifts, devices and bequests made by any person to the State for common school purposes.

The proceeds of all property granted to the State when the purpose of such grant shall not be stated.

Fines imposed for violations of laws regulating practice of medicine.

Fees of itinerant venders.

Sundry fees of the Clerk of the State Land Board.

All moneys which may be paid for exemption from military duty.

The fund is invested in first mortgage loans on real property within the State, and in bonds lawfully issued by school districts within the State. The income from such investments is used to aid in the support of the public schools.

## Weights and Measures

### Detail Statement

Congress, in 1836, passed a resolution directing the Secretary of the Treasury of the United States to have made, and forward to each state, a complete set of "standard" weights and measures, those for Oregon being received some years later, and, in conformity with Sections 6060 and 6061, Lord's Oregon Laws, deposited with the State Treasurer.

Owing to the fact that a number of these "standards" were lost and that no funds were provided to purchase others, maintain an office or prosecute the work, very little was accomplished, until the Legislature of 1913, acting on the recommendations embodied in the 1911 and 1912 report of the present State Treasurer upon this subject, passed the present weight and measure law.

Chapter 325, Laws 1913, defines the duty of the State Sealer (Treasurer), authorizes the appointment of a Deputy State Sealer, defining his duties, provides for the appointment by County Courts of county sealers, appropriates a sum of money for the purchase of necessary State standards and for the maintenance of the office, and includes in the Act certain sections requiring the testing of scales, weights and measures, in addition to regulating the manner of sale of various commodities, and gives the Deputy State Sealer supervisory control over the inspection of weights and measures throughout the State.

In conformity with Section 10 of the said chapter, I herewith submit my biennial report, giving the proceedings under this Act, with a statement of the expense, including the work accomplished in the various counties under the supervision of the State office, together with such recommendations as my experience during the fifteen months that this law has been in active operation show me to be necessary for the more efficient and economical administration of a law of this kind in the future.

The law was in effect June 3, 1913, and the preliminary work was taken up, the State standards being ordered with the request that they be shipped through the Bureau of Standards, for verification and sealing by the government. Those standards remaining in the possession of the State were returned to the Bureau for readjustment and sealing. Correspondence was taken up with the various County Courts, calling to their attention the necessity of ordering their equipment and appointing a sealer, as required in Section 11 of the law.

All laws relating to weights and measures were codified and printed, and these, together with a pamphlet of general information and instructions with reference to their enforcement, were mailed to the different County Courts and to the sealers as appointed.

Following you will find a list of those counties appointing, with date of shipment of their equipment, from the State office, after adjustments, correction and certification had been made, in addition the nature of the reports submitted being noted:

Yamhill .....		

With reference to the foregoing tabulation, you will notice that the counties of Curry, Gilliam, Tillamook and Yamhill failed to appoint sealers or to order the necessary equipment; that the counties of Lake, Lincoln and Malheur neglected to forward reports showing the work done; it will also be noted that the counties of Baker, Harney, Lincoln, Malheur and Union have but very recently received their equipments, enabling them to begin the active enforcement of the law; con-

sequently, taking these facts into consideration, the major portion of the work accomplished throughout the State as shown in the detail statement following, is largely the result of the enforcement of the law in the following counties, Portland operating under city ordinance being included:

Benton	Douglas	Lane	Sherman
Clackamas	Grant	Linn	Umatilla
Clatsop	Hood River	Marion	Wallowa
Columbia	Jackson	Morrow	Wasco
Coos	Josephine	Multnomah	Washington
Crook	Klamath	Polk	Wheeler

In addition to the apparatus and articles inspected, as noted above, inspections and investigations were made as regards the method of sale and manner of handling many commodities; hop yards were visited and the measuring baskets inspected; scales in use by hay-balers were tested; wagons delivering wood, sand, gravel and crushed rock were measured; ice weights were checked in many places; numerous commodities in package form were re-weighed; and, in general, in addition to the routine work of testing the apparatus in use, care has been taken by the sealers to see that the amounts as ordered were being delivered. These miscellaneous inspections followed by special reports, taken together with the investigations of the State office, form the basis of such recommendations as are made.

Section 6, of Chapter 325, requires the Deputy State Sealer to try, prove and seal all proper "standards" sent to him; and, in compliance with this provision, the following enumerated equipment, ordered by the various counties and received at the State office, has been tested, adjustments made when necessary, sealed when accurate, and forwarded to those counties ordering the same, accompanied by the "certificate" as to accuracy from this office.

The preceding equipment has been very carefully tested and adjusted by the State office, to come within the "tolerance" requirements of Class B, and has been sealed with the official State seal, the word "Oregon" enclosed in a "shield", and impressed upon each weight or measure certified to. The equipments being selected with the end in view of providing each county with such apparatus as would allow their sealer to certify to the accuracy or establish the inaccuracy of any weight, measure or device for ascertaining quantity as used commercially, that might be submitted to him. An average county equipment consisting of the following apparatus, with the subdivisions as shown:

- One set avoirdupois weights 10, 5, 2, 2 and 1 pounds; 8, 4, 2, 1,  $\frac{1}{2}$ ,  $\frac{1}{4}$ ,  $\frac{1}{8}$  and 1-16 ounces.
- One set troy and apothecary weights, 12, 6, 2, 2 and 1 ounces; 4, 2 and 1 drachms; 2 and 1 scruples; 10, 5, 2, 1, 1, .5, .2, .2 and .1 grains.
- One gallon and one quart liquid measure.
- One peck and one quart dry measure.
- One 50 and one five foot steel tape.
- One glass graduate, subdivided into 1,  $\frac{1}{2}$  and  $\frac{1}{4}$  liquid and dry pints by  $\frac{1}{2}$  cubic inches.
- One set (10 50-pound) avoirdupois test weights.

## INSPECTIONS—SPECIAL

At the request of the Railroad Commission of Oregon, a test was made of the "Railroad Track Scale Testing Car", owned and used jointly by the Railroad Commission of Oregon and the Public Service Commission of Washington. Inspection was made in Portland at the Brooklyn yards of the Southern Pacific Railroad, and at the conclusion of a satisfactory test, the accuracy of the weight of the car (60,000 pounds) being established, it was officially sealed.

At the request of the Southern Pacific Railroad, the following enumerated weights, the property of the Southern Pacific Railroad, and in use on their railway track scale repair car, were tested, adjusted to within a + or — error of 1 grain on the larger weights and to 1-100 of 1 grain on the smaller weights, and “sealed” as shown.

- 39 50-pound avoirdupois test weights—sealed.
- 3 50-pound avoirdupois test weights.
- 2 25-pound avoirdupois test weights.
- 1 each of the following counter poise weights:  
4, 2 and 1 pounds; 8, 4, 2, 1,  $\frac{1}{2}$ ,  $\frac{1}{4}$  ounces.

At the request of the State Highway Engineer, this office recently tested and certified as to accuracy two 100-foot steel tapes for use in bridge work, minimum errors of 1-100 of 1 inch being noted.

At the request of the Hood River Apple Vinegar Company, one brass nickel plated “standard” gallon measure was tested and certified to for use by that company.

At the request of The Portland Fuel Dealers Association, a series of tests were conducted to determine the amount of shrinkage to the cord on sawed wood. Tests had been made previously but some members of the association were of the opinion that the shrinkage was greater than the amount being recognized by the sealers. In order to verify or disprove the accuracy of the amount allowed, other tests were conducted, Portland being represented by Mr. E. D. Jones, city sealer, the association by Secretary M. L. McGraw and various members, the State office conducting the test. Average wood, four feet in length, being piled, measured, sawed and re-measured, and the previous figure, 12 cubic feet to a cord, was found to have been correctly placed. This test being of importance inasmuch as the concession asked would have allowed the delivery of four cubic feet less to each cord of wood, delivered sawed, practically throughout the State.

#### INSPECTIONS—STATE INSTITUTIONS

At the request of the Board of Control, an inspection was made of the apparatus in use at the following State institutions: State Hospital, State Farm, Feeble Minded Institute, School for the Blind, Penitentiary, Tuberculosis Hospital, School for the Deaf, Girls Industrial School and the Training School. Adjustments and corrections were made where possible, such as were found to be beyond repair were condemned and the purchase of new equipment was advised where necessary. A report was filed making such recommendations as would allow the use of the equipment to the best advantage in keeping a check upon commodities bought, sold or exchanged.

In addition to the foregoing inspections and tests, various apparatus brought to the State office has been inspected and passed upon; visits have been made to different counties and investigations made as regards the manner of sale and method of handling numerous commodities; and, in general, through personal visits and by correspondence, a conscientious effort has been made to see that the best results possible were obtained from the administration of the law.

Following are the original appropriations, with a detailed statement of the expenditures:

### RECOMMENDATIONS

From knowledge acquired from investigations and inspections made by the State office and gathered from the reports submitted by the county sealers, we realize that certain conditions exist that can not be remedied under the present law, and in order to make said laws more efficient, after advising with the Government Bureau of Standards, the State office submits the following recommendations for your consideration:

That the present State laws relating to weights and measures be so amended as to conform as closely as possibly to the "model" law as recommended by the Government Bureau of Standards, that the "tolerances" and "specifications" as recommended by the "Bureau" be adopted, and that the State Sealer be given the power to pass upon weighing and measuring

devices as a type, and prevent the sale of such for commercial purposes as are made contrary to these specifications or that do not come within the prescribed tolerances.

In view of the fact that there are various sizes of berry boxes in use in this State, and that purchasers are unable to distinguish between these sizes, thereby having to buy at a disadvantage, and causing numerous complaints to be made both at the State office and with different sealers, this condition in inter-state shipments often causing a loss to the growers as well, I would recommend that a section be included regulating the manner of sale of berries and small fruits, and that the size of the boxes or containers be established.

The present law relating to the picking of hops requires the use of a measure not fitted for practical use, that is of obsolete form, and if used would cause an additional and unwarranted expense to the grower, without benefit to the pickers, I would recommend that the present law be amended and a section included standardizing the measure for picking purposes as is in common use at present, and providing, in addition, for the picking by weight, where desired.

Owing to the fact that the dry measure is an unreliable method of ascertaining quantity, and that, in addition, liquid measures holding nearly 15 per cent less are often used instead of dry, I would recommend that the use of the dry measure be abolished and that all commodities heretofore commonly sold by dry measure be sold on the basis of "net weight" or by numerical count.

The provisions of a number of the laws conflicting as regards the sale of certain commodities, I would recommend that all laws that require or permit the sale of any commodity usually sold by weight or measure on a basis other than that of net weight or measure, be repealed or amended.

In order that all purchasers may have knowledge of the quantity of commodities sold in package form, I would recommend that a net weight section be included, requiring that all commodities put up in package form, have the net weight or measure plainly marked on the container.

In view of the fact that the population of a number of the counties of the State is small and that places of business are widely separated and that there is not sufficient work to require the employment of a sealer at all times, and in order to give a more economical as well as a more efficient administration of the law, I would recommend that certain sections of Chapter 325 be so amended as to give the State Sealer the power of appointment of district sealers, placing two or more

counties in one district, with not less than five nor more than eight districts to the State, and repealing those sections that at present require the appointment of a sealer to each county.

That in the interest of economy in handling the office and to expedite the transaction of business and that the responsibility of administration be properly placed, I would recommend that all laws relating to the inspection of weights and measures or to the sale of commodities by weight or measure be included in the amended Act, and that the State office be given direct supervision throughout the State.

F. G. BUCHTEL, Deputy State Sealer.
